## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 22-30 are allowed.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-20,31-36 have been considered but are moot in view of the new ground(s) of rejection. Note that Hise et al clearly shows the use of an enclosed channel on a rotor.

### ***Claim Rejections - 35 USC § 103***

Claims 1-20,31-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over German '895 in view of Hise et al. Figures 1 and 3 of the German publication show a throwing wheel and oppositely rotating impact surfaces cooperating to crush material thrown by the rotor. The rotor does not use enclosed channels which results in uneven material flow and resultant problems. Hise et al solves this problem by disclosing similar apparatus and process including the use of a rotor having enclosed channels. In order to promote even material flow, it would have been obvious for one of ordinary skill in the art at the time of the invention to modify German '895 by enclosing the channels on the rotor, taught to be desirable by Hise et al. The remaining limitations would then have been obvious design choices as they solve no stated problems, and applicant has not argued their patentability except to state they depend on their independent claims which applicant believes to be allowable.

### ***Conclusion***

Art Unit: 3725

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
